

**MRETS 12.0 Pipeline Summary
For Enhancement Committee Presentation at
Subscriber Group Meeting Feb. 27, 2013**

1. Items approved by Enhancement Committee and Board

- CR39 Accept Generation Uploads for Multiple Facilities
 - Approved by EC Jan. 22, by board in Sept.
 - \$6,720
- CR41 Registration Review Date
 - Approved by EC Jan. 22, by board in Sept.
 - \$1,120

2. Items slated for Telerik-related upgrade in MRETS 11.0 Release now delayed until 12.0

- CR30 Column Headings and Databooks
- CR34 Column Control (only Column Summary Pop-up is delayed)

3. Placeholder for new items that may result from Upgrade UAT Test Results

- Enhancement Committee will be following up on these in March

4. Other items in the works

- CR43 Improvements for Transfer of RECs into Multiple Subaccounts - Edit Volumes in Transfer Confirmation Page
 - Approved by EC, being posted to board for approval
 - \$1,920
- CR42 Improvements for Transfer of RECs into Multiple Subaccounts – Selection by volume or percentage, assignment capabilities, FIFO/LIFO allocation
 - \$14,400 – APX reviewing to determine if Telerik-related cost savings are available and which portion is driving the cost
- CR44 Navigation and Dashboard (Telerik Phase II)
 - \$98,400 is estimate as of Feb. 18, with one additional item yet to be included in estimate. Also, APX is determining if some items can be parsed out so that Enhancement Committee can prioritize
